A Family Perspective, by Bud Ozar:

Jesus sent out His apostles without a lot of "things" because THINGS distract. We collect, argue about and protect our "things." Garage sales only transfer "things." We even ignore each other because we have "things" to do. What "things" are separating you from your family?

THE ANNUAL ANATOMICAL GIFT PROGRAM MEMORIAL SERVICE at Historic St. Agnes Cemetery in Menands, NY will take place on Monday, 13 August, at 2:00 pm. St. Agnes Cemetery donates grave space and internment services for Catholics who have donated their bodies to the Anatomical Gift Program at the Albany Medical College. Family and friends of individuals who chose to donate and are being interred are invited to join our staff and the medical students of this program for a very poignant memorial service at the St. Agnes Cemetery Mausoleum. In 1983, Albany Diocesan Cemeteries partnered with Albany Medical Center to offer grave space in appreciation and respect for the sacrifice that these individuals and their families have made for medical science. Since then, 502 Anatomical Gift internments have been completed. When studies by medical students are completed, the body is cremated and placed in an urn. After the memorial service, each urn is buried in an individual grave. The grave is enough space to permit the burial of a second urn, of a spouse or close relative. The grave may be marked with a bronze memorial and flower vase. Bronze memorials may be purchased at the cemetery. Family, friends, medical students and others who wish to pay their respects are encouraged to join us to honor those who have made this sacrifice.
